

Enough Is Enough's[®] Safe WiFiSM campaign calls on corporate America to voluntarily filter pornography and child sexual abuse material (CSAM) on its public WiFi so that children, youth, families and adults can be provided a safer, more friendly WiFi environment.

Join Starbucks and McDonald's in adopting Safe WiFiSM

1 IN 6 PEOPLE USE PUBLIC WIFI TO VIEW ONLINE PORNOGRAPHY

Of those who admit to it, **40 percent said they've done so in a Hotel/Airbnb.**

(2017 Global Survey by Norton by Symantec)

UNFILTERED WIFI ALLOWS PREDATORS/TRAFFICKERS ACCESS TO CHILD SEXUAL ABUSE MATERIAL (CSAM) AND POTENTIAL VICTIMS.

CSAM is illegal to produce, distribute and download. In 2021, **29.3 million reports** of suspected child sexual exploitation were made to the CyberTipline.

SEXUAL HARASSMENT, VIOLENT/EXPLOITIVE CONTENT HAVE NO PLACE IN THE HOSPITALITY INDUSTRY

The viewing of pornography and CSAM in public spaces (lobbies, poolside, breakrooms, etc.) can lead to a **toxic environment and sexual harassment leaving employees and guests at risk.**

ANYONE WITH UNRESTRICTED PUBLIC WIFI CAN VIEW GRAPHIC ONLINE PORNOGRAPHY, MOST OF WHICH IS PROSECUTABLE UNDER EXISTING OBSCENITY LAWS

Today's mainstream pornography depicts themes of teen rape, incest, group sex, torture, strangulation, and more, **and is illegal under Federal law.** This content fuels a cycle of abuse including a demand for sex trafficking and child sexual exploitation.

FILTERING WIFI FROM PORNOGRAPHY AND CSAM IS A "WIN-WIN"

Hotels and lodging facilities offering Safe WiFi is an act of corporate social responsibility. Industry leaders are already taking proactive measures to train employees to recognize and prevent human trafficking. **Filtering WiFi adds to comprehensive efforts to combat all forms of sexual exploitation.**

"CNY MAN USED WIFI AT CICERO WALMART WHERE HE WORKED TO TRADE CHILD PORNOGRAPHY, FEDS SAY"

Prosecutors said he knowingly possessed 52 images and 452 videos of child pornography on his cell phone, and admitted he distributed a video file showing sexual abuse of a child who was between 8 and 11 years old.

Making the Internet Safer for Children and Families

THE BUSINESS CASE FOR SAFE WIFI

UPDATING DIGITAL POLICIES AND VOLUNTARILY FILTERING PORNOGRAPHY AND CHILD SEXUAL ABUSE MATERIAL (CSAM) ON PUBLIC WIFI WILL HELP TO:

- Prevent guests and staff from being exposed to sexually violent and exploitive pornography and CSAM when using your WiFi services;
- Prevent children and teens from easily bypassing filters and other parental control tools set up by their parents when logging onto public WiFi;
- Prevent sexual predators/traffickers from accessing CSAM and flying under the radar of law enforcement;
- Avoid a potentially hostile and toxic environment, including sexual harassment, for hotel employees and guests;
- Establish your hotel as a leader in the hospitality industry to ensure the safety of its guests, staff and others;
- Align digital policies with corporate policies and industry best practices; and
- Reinforce your hard-earned, family-friendly brand.
